

Aeroworks LLC to begin operations at Skyhaven! As of March 1, 2010 Aeroworks LLC has entered an agreement with the Pease Development Authority to establish an aircraft maintenance and flight support operation from hangar 5 at Skyhaven airport.

Aeroworks LLC has been established in order to provide the Skyhaven aviation community with a full service aircraft maintenance facility. Services we offer include aircraft inspection, major and minor airframe repair, aircraft restoration, airframe and powerplant modifications, interior renovations, engine overhaul and Rotax engine servicing. Additionally we shall be offering parts support for common items such as filters, batteries, tires etc, pilot supplies and aviation consumables such as engine lubricating oil. Aeroworks LLC will be offering complete aircraft detailing services. "Quick wash" services will be available for those customers unable to wash their own aircraft but desire to attend to the finer aspects of detailing on their own.

Currently, Aeroworks LLC is in the process of negotiating leaseback arrangements in order to provide the local aviation community with a source of rental and flight school aircraft. We will keep you posted with any developments or updated information!

Aeroworks LLC has been formed by Eric Obsuth, the proprietor of Sandhill Aviation of Hampton Airfield. Sandhill Aviation has been operating in various forms since it was established in 1985, nestled in the foothills of Eastern Colorado. Over the past few years Sandhill aviation has been largely devoted to the support of classic aircraft and Teledyne Continental Motors engines up through the C-145/O-300 models. Sandhill Aviation has enjoyed a favorable reputation with the Cessna 170 community and a customer base reaching as far away as Spain!

Currently our schedule is to begin "ramping up" through the month of March, offering limited services by March 15th. Full maintenance services should be available by April 1st! Please check here for details and updates! Aeroworks LLC may be contacted by phone at **603 479-5832**.
