*Celebrating our 40th year of aviation
community in the seacoast region sharing
aircraft building, restorations, the skies
above us. and fellowship.*

A Message From Todd Scruton, EAA Chapter 225 President

Hi everyone,

Another month has passed and it looks like we may just be turning the corner into Spring. I'm sure we will be blasted by old man winter once or twice more, but the hardy New Englander in all of us will press on. Speaking of pressing on, after a two plus year rebuild/update I was able to turn power on in my own airplane this evening. I had pulled out all the replaced them with two D180. For those who what I have is a pair of (EFIS) and Engine computers mounted in between those two I have model IV. Its surely not the provides enough info to the future.

steam gauges (and wiring!) and products from Dynon, a D100 and aren't familiar with Dynon products Electronic Flight Information System Management System (EMS) front of the pilot/copilot. Lastly in a GPS moving map from AVMAP, latest in GPS technology but it plan routes and run the autopilot in

This month we will as usual watch the chapter video, then take a look at the schedule for this summer's young eagle rally's and talk projects. We are also getting into that time of year where we may be able to cook out beforehand as long as the weather cooperates. Maybe we will give it one more month..... Looking forward to seeing you all, hopefully some of the snow birds will soon return too.

Take care, Todd

50,000 Young Eagles Enrolled in Sporty's Learn to Fly Course

March 8, 2018 - A milestone was reached on March 8, as 50,000 [Young Eagles](#) have now taken the next step in their aviation journeys by enrolling in Sporty's Learn to Fly Course after their Young Eagles flight.

"More than 2 million young people have been introduced to airplanes and aviation through Young Eagles and 50,000 of them have enrolled in Sporty's Learn to Fly course to pursue their aviation dream," said Michael Wolf, EAA Lifetime 460022, President and CEO of Sporty's. "The fantastic metrics speak to the success of Young Eagles and its impact on the general aviation community."

A Young Eagles flight is an important and special moment for many young people, but it is only the first step in the EAA Young Eagles Flight Plan, which aims to get as many pilots in the sky as possible. Sporty's Learn to Fly Course is a huge part of making that happen.

"Sporty's has been a strong supporter of the Young Eagles program for years," said Brian O'Lena, EAA Manager of Young Eagle and Eagle Flights. "They understand that creating the next generation of aviators is a long term process and by supplying over 50,000 Sporty's Learn to Fly Courses to Young Eagles they are helping make the dream of flight a reality."

This progression from Young Eagles flights to enrollment in Sporty's Learn to Fly Course perfectly supports EAA's mission to grow participation in aviation by promoting The Spirit of Aviation, by giving young people more accessible pathways into the air.

March 1, 2018 - The centennial year of the British Royal Air Force will be commemorated with historic aircraft, flyovers, and special programming during EAA AirVenture Oshkosh 2018. The RAF's 100th anniversary will be celebrated throughout the week, with a primary focus on the centennial on Tuesday, July 24.

“‘Legendary’ is perhaps the best way to describe the gathering of people and airplanes that will be part of the Royal Air Force centennial at Oshkosh this year,” said Rick Larsen, EAA’s vice president of communities and member programs, who coordinates AirVenture features and attractions. “From the World War I era, to the Battle of Britain and early jets, to today’s modern military aircraft, the RAF has been an integral part of aviation history. We will fully celebrate that during the week at EAA AirVenture Oshkosh.”

The aircraft on display on the showcase Boeing Plaza and flying during the air show will include an array of World War I and World War II aircraft, some of the [early fighter jets](#) as announced previously in the Classic Jets gathering, and modern RAF aircraft. The aircraft will include those in British markings as well as those from Commonwealth nations such as Canada. Specific aircraft attending will be announced as they are confirmed.

In addition, a program at EAA’s Theater in the Woods will devote extensive programming to the RAF centennial on Monday evening, July 23.

The Royal Air Force was formally founded on April 1, 1918, with the merger of the Royal Flying Corps and the Royal Naval Air Service. The service grew and became known for its extraordinary heroism during the Battle of Britain in the early days of World War II, as well as the development of many early fighter jets such as the Meteor and Vampire. The RAF was the first service to use the Harrier jump jet after its development in the 1960s, with RAF aircraft and personnel still on active duty in many parts of the world today.

EAA Webinars Schedule

We've announced our (October-November) that you can enjoy from the comfort of your home. EAA Webinars are free to all aviation enthusiasts, but pre-registration is recommended since space is limited to the first 1,000 registrants.

Upcoming webinars include the following topics and presenters:

March Webinars

Making Metal Behave

Wednesday, March 7 – 8 p.m. CST

Presenter: Mike Busch | *Qualifies for FAA Wings and AMT credit.*

[Register Now >>](#)

What TBO Really Means: Why I Bought a New Plane

Wednesday, March 14 – 7 p.m. CDT

Presenter: Prof. H. Paul Shuch | *Qualifies for FAA Wings and AMT credit.*

[Register Now >>](#)

Aw Chute!

Wednesday, March 21 – 7 p.m. CDT

Presenter: Boris Popov | *Qualifies for FAA Wings and AMT credit.*

[Register Now >>](#)

RV Aerobatics

Tuesday, March 27 – 7 p.m. CDT

Presenter: Ron Schreck | *Qualifies for FAA Wings credit.*

[Register Now >>](#)

April Webinars

Chapter Chat: Tax Exempt Basics

Tuesday, April 3 – 7 p.m. CDT

Presenter: Patti Arthur

[Register Now >>](#)

Differential Diagnosis

Wednesday, April 4 – 8 p.m. CDT

Presenter: Mike Busch | *Qualifies for FAA Wings and AMT credit.*

[Register Now >>](#)

Aviation Weather Center Operations and Products

Wednesday, April 11 – 7 p.m. CDT

Presenter: Declan Cannon | *Qualifies for FAA Wings credit.*

[Register Now >>](#)

Freestyle Aerobatics

Tuesday, April 17 – 7 p.m. CDT

Presenter: Jim Bourke

[Register Now >>](#)

Flying with Aerovie EFB

Wednesday, April 25 – 7 p.m. CDT

Presenter: Bryan Heitman | *Qualifies for FAA Wings credit.*

[Register Now >>](#)

[Register today](#) for these upcoming free webinars!

Audio speakers and a broadband Internet connection are required to participate in the webinars. Visit the [webinars page](#) for more information about EAA's Webinars.

EAA gratefully acknowledges the support of [Aircraft Spruce and Specialty Co.](#) for their generous sponsorship of our webinar programs.
