

A banner with a background of rusted metal. The text "RUSTY PILOT WORKSHOP" is written in large, white, bold, sans-serif capital letters across the center.

RUSTY PILOT WORKSHOP

Rusty Pilot Workshop March 8

Pilot skills feeling a little rusty? Our 3-hour workshop on Saturday, March 8 from 1 to 4pm, is just the thing to get you feeling like Chuck Yeager again. And did I mention that it's FREE?

We will review a variety of topics from airspace to flight planning and emergencies, targeted toward less active pilots or those who might have been away from flying for a while. If you complete the flight portion afterwards, we can even count this seminar as the ground portion of your flight review. Pretty good deal, eh?

Winter is almost over. You want to get back in the air again, don't you?

It's also a great review for those who are active pilots, but maybe haven't hit the books much lately. We will cover a wide range of basic topics, answer lots of questions, and hopefully have a great time with good old 'hangar flying'.

Feel free to drop in, but if you think you're likely to attend, we'd appreciate an RSVP with Anne at 324-8919 or events@flyingsma.com so we know how many seats to prepare and how many refreshments to buy!

We really hope to see some of you that we haven't seen in a while!
