

Skyhaven Airport

Construct, Mark, Light & Sign Taxiway 'A'

PROJECT UPDATE

March 12, 2008

Construction of the North Section of Taxiway 'A' is on-going and construction of the Center Section has begun. NOTAMs have been placed regarding (1) personnel and equipment working near Runway 15-33 and (2) closure of the *existing skewed* section of Taxiway 'A' to all aircraft operations from 6 am to 5 pm local time Monday through Friday. Construction vehicles continue to haul dirt to the work site. Be aware that a temporary dirt pile is located in the work area for the Center Section of the taxiway – there is a NOTAM to that effect too. The new segmented circle is being constructed on the east side of the runway replacing the old segmented circle that has been torn down. The taxiway lights remain OTS for the next few weeks.

NHDOT is committed to providing the airport tenants and visitors with the latest information on this project.

To receive e-mail updates on this project's progress or to ask questions about the project, please call (603) 271-2552 or e-mail cniewola@dot.state.nh.us.

For *immediate* project concerns, please contact Ossipee Valley Aviation and the information will be relayed to the appropriate parties.
